- | | |
|---|--|
| ▪ Cloud & Infrastructure: Azure, AWS, VMware, Hyper-V | ▪ Security: MFA, Firewalls, VPN, IDS/IPS, Entra ID, MDM, Intune |
| ▪ AI Tools: Microsoft Copilot, ChatGPT, Julius, Claude, Gemini | ▪ Systems: Active Directory, Windows, Office 365, Endpoint Management, Google Workspace |
| ▪ Tools: ServiceNow, Jira, Salesforce, VoIP | ▪ Backup: Veeam, Acronis |

WORK HISTORY

System Administrator / IT Project Lead | District Health Care Services LLC

Washington, DC | September 2023 - June 2025

- Led infrastructure and systems operations with 99.9% uptime for a multi-site healthcare environment of 500+ users
- Directed full EPIC EMR implementation, coordinating 5+ vendors and stakeholders, delivering a HIPAA-compliant go-live with zero critical downtime
- Implemented MFA, firewall hardening, and RBAC to strengthen security posture and reduce risk exposure by ~40%
- Designed disaster recovery strategies achieving RTO under 4 hours
- Improved onboarding efficiency by 35% by optimizing endpoint management and access provisioning
- Increased help desk performance with 30% higher first-contact resolution and 25% faster ticket resolution

IT Manager / Technology Analyst | Student Veterans of America

Washington, DC | September 2014 - May 2023

- Directed enterprise IT operations across infrastructure, cloud, cybersecurity, and applications
- Built and led a 10-person IT team, delivering 95% of projects on time and within budget
- Designed and implemented a NIST/ISO-aligned ISMS, reducing audit findings by 50%
- Developed 30+ standard operating procedures (SOPs) improving operational consistency and compliance readiness
- Managed \$500K+ IT budget, achieving 15–20% cost savings through vendor optimization
- Reduced MTTR by 40% through help desk process improvements
